IMMERSE EDUCATION

What is the Extended Project Qualification (EPQ) Programme?

This programme offers 1:1 tutoring and bespoke guidance with a highly-skilled Oxford or Cambridge academic, culminating in a full-length academic research paper befitting EPQ standards.

This personalised programme will equip you with the skills to undertake your EPQ with confidence, harnessing the expertise from accomplished Oxford and Cambridge academics boasting extensive experience of the EPQ curriculum. Through careful guidance and support throughout the programme from mentor and tutor, your programme will culminate in the completion of a 5,000 word essay designed to provide you with the highest chance of success.

You will also receive a tailored evaluation report conveying highly, personalised feedback to further your subject interest and develop your skills and knowledge.

Under the tutelage of our PhD Oxbridge tutors, you can devise and develop your research question, explore the topic in rich detail, propose innovative ideas and construct a structured viewpoint, all within a study format that works for your goals and study style. Depending on what you choose, your mentor will offer study tips, provide study plan support and practical advice on time-management.

Our three delivery modes make the programme unique and customisable to suit your learning goals over a time period tailored to your needs starting on a date of your choice.

Why Choose the Extended Project Qualification Online Research Programme?

Our course is designed to provide full 1:1 support you as you write your EPQ, while giving you the tools you need to improve your study habits, increase your focus, and achieve your academic goals.

Our course is delivered entirely online, making it easy and convenient to complete at your own pace and schedule.

The course is year-round, designed to cater for your respective Extended Project Qualification deadline.

Why Choose the Extended Project Qualification Online Research Programme?

Our expert tutors have extensive experience and techniques for delivering high standard research papers. They will help you meet all the aspects of the Extended Project Qualification criteria with confidence.

EPQ Criteria	Immerse Education: EPQ Online Research Programme	How?
Choose an area of interest	✓	<p>With the guidance of an expert PhD level Oxford or Cambridge or Ivy League tutor, you can explore potential research questions before refining and specifying the topic you would like to explore. You will undertake advanced research, culminating in a full-length academic research paper. The programme is conducted online, with the research paper assessed by you tutor.</p>
Draft a title and aim of the project	✓	<p>Participants gain the unique opportunity to dive deep into detailed facets of their topic, under the careful tutelage of their Oxbridge tutor. Through university-level questioning and exploratory methodology, participants develop the area of focus for their project while drafting an apt title to solidify the direction of their project.</p>

Why Choose the Extended Project Qualification Online Research Programme?

EPQ Criteria	Immerse Education: EPQ Online Research Programme	How?
Plan, research and carry out the project	✓	<p>Our PhD tutors are skilled in broadening participants' comfort zones, gently challenging them to be inquisitive and curious thinkers. Though personalised 1:1 sessions for academic writing, participants will learn how to create plans that will ensure a clear structure to carry out their project with ease.</p>
Deliver a presentation	✓	<p>Participants are introduced to key undergraduate-level research skills, including learning how to use online journals, and how to reference authors correctly. Most importantly they will be taught how to present their project to a university-level standard.</p>

“Rosie has an amazing understanding of real-life examples, and in her between questions make sure they engage me. And in fact she really loves my opinion, and she is just amazing, the best teacher I could have. She has given me the best experience advice whether it be off or on topic. She has a way to make understanding topics, even crucial topics like the 2008 financial crisis became a topic on my tips. She was never limited to the course but always asked me about my day, and my personal experience, and the class always became a discussion room, which helped me open up.

Tutor Profiles

“ Rosie completed her undergraduate studies in Montreal Canada, where she worked in research. After that, she moved back to Jordan and worked in the challenging payments sector for a number of years before going back to education. She recently completed a postgraduate degree in Strategy and Innovation at the Saïd Business School, University of Oxford. This was her second degree after doing the MBA at IE Business School in Spain. In her final paper at Oxford, she presented different ways to innovate in strategy and highlighted the importance of non-market aspects in strategic mapping. Rosie has been with Immerse Education since 2022.

£1,999

More extensive support from a tutor and mentor.

Extended Project Qualification Online Research Programme: Our Approach

The Extended Project Qualification Online Research Programme is built on the same philosophy as all our programmes:

1. We connect great tutors and mentors with students

The EPQ Online Research Programme is taught by PhD level tutors from either the Universities of Cambridge, Oxford, or from an Ivy League institution. Students develop a project under the guidance of their mentors and tutors which is evaluated and assessed.

2. Everything we do is grounded in academic excellence

We develop learners academic skills and critical thinking in the context of their EPQ.

3. Our programmes are innovative and challenging

We aim to expand students' horizons, and to challenge them to be inquisitive and curious thinkers.

4. We offer growth and enrichment

Our courses are designed for high-achieving individuals looking to place themselves in the best possible position for their EPQ.
