* This list is accurate as of the last update by LanguageCert. However, the information is subject to change, so you should also check the UK government guidance on English language tests for UK visas for latest information. Please note that UK visa applicants are responsible for ensuring that they take the correct exam.

Useful tip!

- Sponsors may require a higher level of English than the UKVI requirement for a Work visa. Before you plan your exam, be sure to check which exam type and level is right with your sponsor.
- The table above outlines the language skills and minimum required competence level per visa type. If your language competence is higher than the minimum level required for your visa type, you can choose to take a higher-level exam in the same skills, which will also cover your application requirement.
