The International Year One, a two-semester programme at Leeds International Study Centre, covers four distinct subject pathways, and will prepare eligible students to progress to the second year of a degree in their chosen subject at the University of Leeds.

95% of students who completed their International Year One programme at Leeds International Study Centre for progression to University of Leeds progressed to a degree course at the University of Leeds in 2021

Why the International Year One?

This course is equivalent to the first year of an undergraduate degree, so you can graduate in a total of three years. Our teachers will work closely with you to bring you a tailored, personal studying experience which will allow you to seamlessly enter an undergraduate degree.

What you will learn

You will study a combination of core and subject-specific modules that focus on teaching you the academic content relevant to the degree you plan on studying at the University. You will also build upon your pre-existing English language skills and develop the study skills you need to succeed in your degree.

Your assessment

You will participate in exams, group projects, presentations and essays as part of your overall assessment. Teachers will monitor your progress closely to ensure you are on track to complete your course successfully, so that you can go on to study your chosen degree at the University of Leeds.

Your degree at the University of Leeds

Once you successfully complete the programme and meet all the necessary academic and English language requirements, you will join the second year of your chosen undergraduate degree at the University of Leeds.
